```

Meta json file will be created before upload to the cloud server.

Run the illustrator extendscript called “Create new item code.jsx”

The script will popup a windows and prompt user to input the Product Item Code

After input, the following actions will be processed in the background:

1. Send the product item code to the cloud server to create a new item record.
2. The following files will be generated and upload to the cloud server and store under the new item record.
 - a. Generate the meta json file based on different type of objects.
 - b. Created all the image objects based on the IMAGES objects
 - c. Collect all the font files based on the information of VARIABLES objects from the local system
 - d. Pdf template file – remove all the VARIABLES objects before created.
3. All the generated file will be upload to the cloud server and store under the new item record file folder.

The above configuration screen contains 2 tabs:

- 1. Artwork Information
- 2. Customer Input Configuration

Artwork Information (Tab)

Artwork Information will display all the artwork information uploaded by the system user including Artwork illustrator File, link image SVG files, Font Files and Label Frames positions.

Customer Input Configuration (Tab)

Customer Input Configuration will display all the variable field names on the left side.

System user can click on any variable field name on the right side and field config table will be shown on the right size.

Artwork information	Customer Input Configuration																										
<table border="1"><thead><tr><th>Variable Field Name</th></tr></thead><tbody><tr><td>FRABRIC1</td></tr><tr><td>FRABRIC2</td></tr><tr><td>SIZE</td></tr><tr><td>UPC</td></tr></tbody></table>	Variable Field Name	FRABRIC1	FRABRIC2	SIZE	UPC	FRABRIC1 <table border="1"><thead><tr><th>Label Name</th><th>Input Type</th><th>Select Table Name</th><th>Option Values</th><th>Prefix</th><th>Delimiter</th><th>Multiple Lines</th></tr></thead><tbody><tr><td>Lining</td><td>SELECT BOX</td><td>content</td><td></td><td>☐</td><td>/</td><td>☐</td></tr><tr><td>Composition</td><td>SELECT BOX</td><td>content</td><td></td><td>☒</td><td>/</td><td>☒</td></tr></tbody></table>	Label Name	Input Type	Select Table Name	Option Values	Prefix	Delimiter	Multiple Lines	Lining	SELECT BOX	content		☐	/	☐	Composition	SELECT BOX	content		☒	/	☒
